

Website Developer Job Requirements

The Company

Originally founded in 2000, we are a boutique graphic design company specialising in graphics, marketing and digital projects for our UK and international clients. We are looking for a candidate who wants to develop themselves in a challenging role where ownership and responsibility are given in return for ideas and dedication.

We are looking for an experienced website developer to join our friendly and hard-working graphic design studio team. You'll be enthusiastic with a positive attitude; dedication and willingness to work hard, sometimes under high production pressure.

The Role and Candidate

- Build websites, prototypes and applications using the latest technologies.
- Providing timely resolution to reported problems with existing websites.
- Working closely with both the design and project resources to achieve the best possible results in web projects from conception right through to delivery.
- Ensuring all work adheres to current industry best practice.
- Selfmotivated, goaloriented and able to work in a team environment.
- Use common sense at all times and pay close attention to detail.
- Committed, enthusiastic, sincere, trustworthy and conscientious.
- Excellent communication skills with the ability to effectively interface with all levels and departments on a formal, informal, written and verbal basis.

Required Skills

- Minimum 2 years experience of HTML5, CSS, Javascript, PHP programming, MySQL.
- Extensive knowledge and experience of building bespoke WordPress themes using the best practice and defacto standard plugins.
- Experience with javascript frameworks and libraries (such as ReactJS, Angular 1.4, jQuery, AJAX).
- Knowledge of WordPress Network (Multisite).
- Experience creating multilingual websites.
- Experience working with REST APIs.
- Good understanding of crossplatform and crossbrowser issues.
- Experience with creating responsive websites.
- Previous experience working for a design agency advantageous.
- Experience building mobile apps with Cordova an advantage.
- Experience working with SVN an advantage.
- Experience managing websites with Plesk an advantage.
- Able to work comfortably with OS X in an Apple Macintosh environment.

The job description describes the principal purpose and main elements of the job. It is a guide to the nature of the main duties as they currently exist but is not intended as a wholly comprehensive or permanent schedule of tasks.
